01 About Global Disease Eradication Fund

- 1) Who we are
- 2) What we do

“GDEF” Who are we ?

1,000won (KRW) from every international flight ticket departing from Republic of Korea is donated to Global Disease Eradication Fund, which is used for the treatment and prevention of infectious disease in low income countries

GDEF is evolving into a leading fund in the global efforts to control and eliminate infectious diseases
And to achieve global health security based on innovative approaches

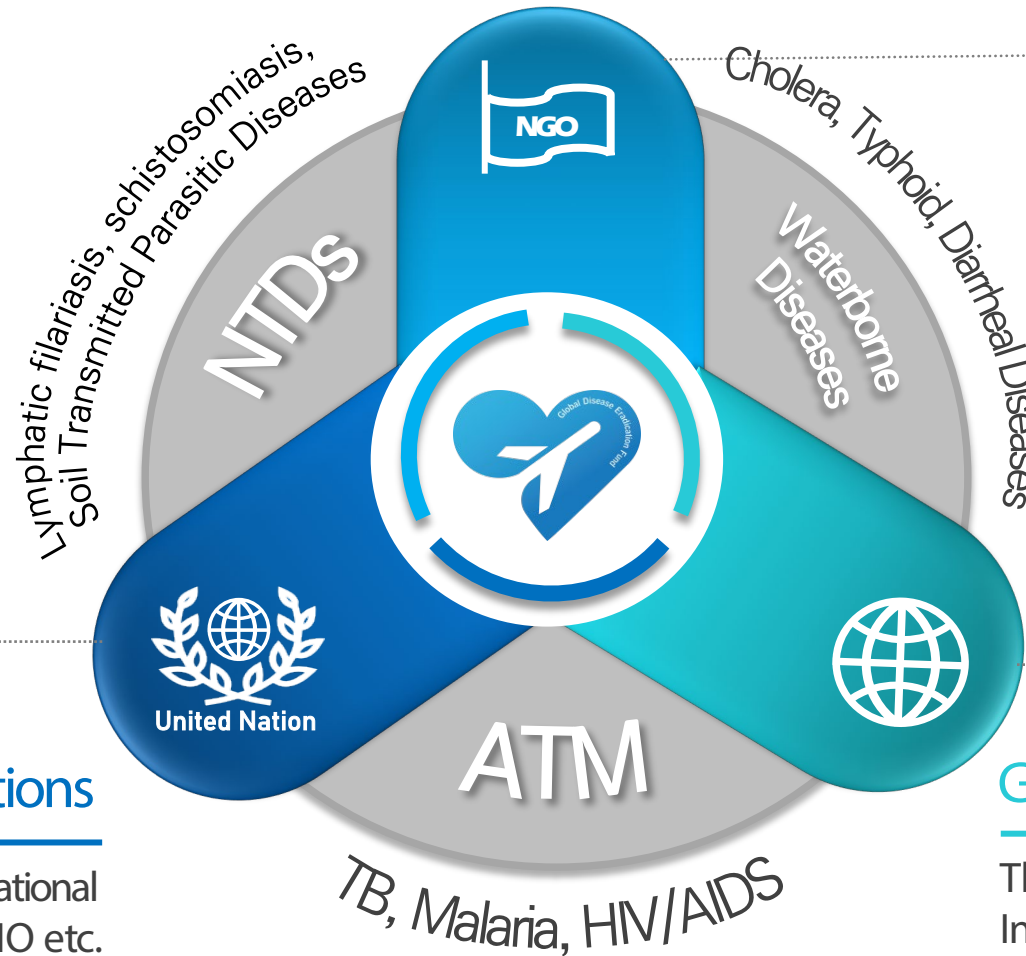

02 GDEF

Project Implementation

- 1) GDEF Partnership
- 2) Where we are

2-1. GDEF Partnership

Public- Private Partnership

Implementing community-oriented projects with diverse Non- Governmental Organizations which have expertise in project implementation at local sites

International Organizations

Partnership with diverse International Organizations such as UN Entities, WHO etc.

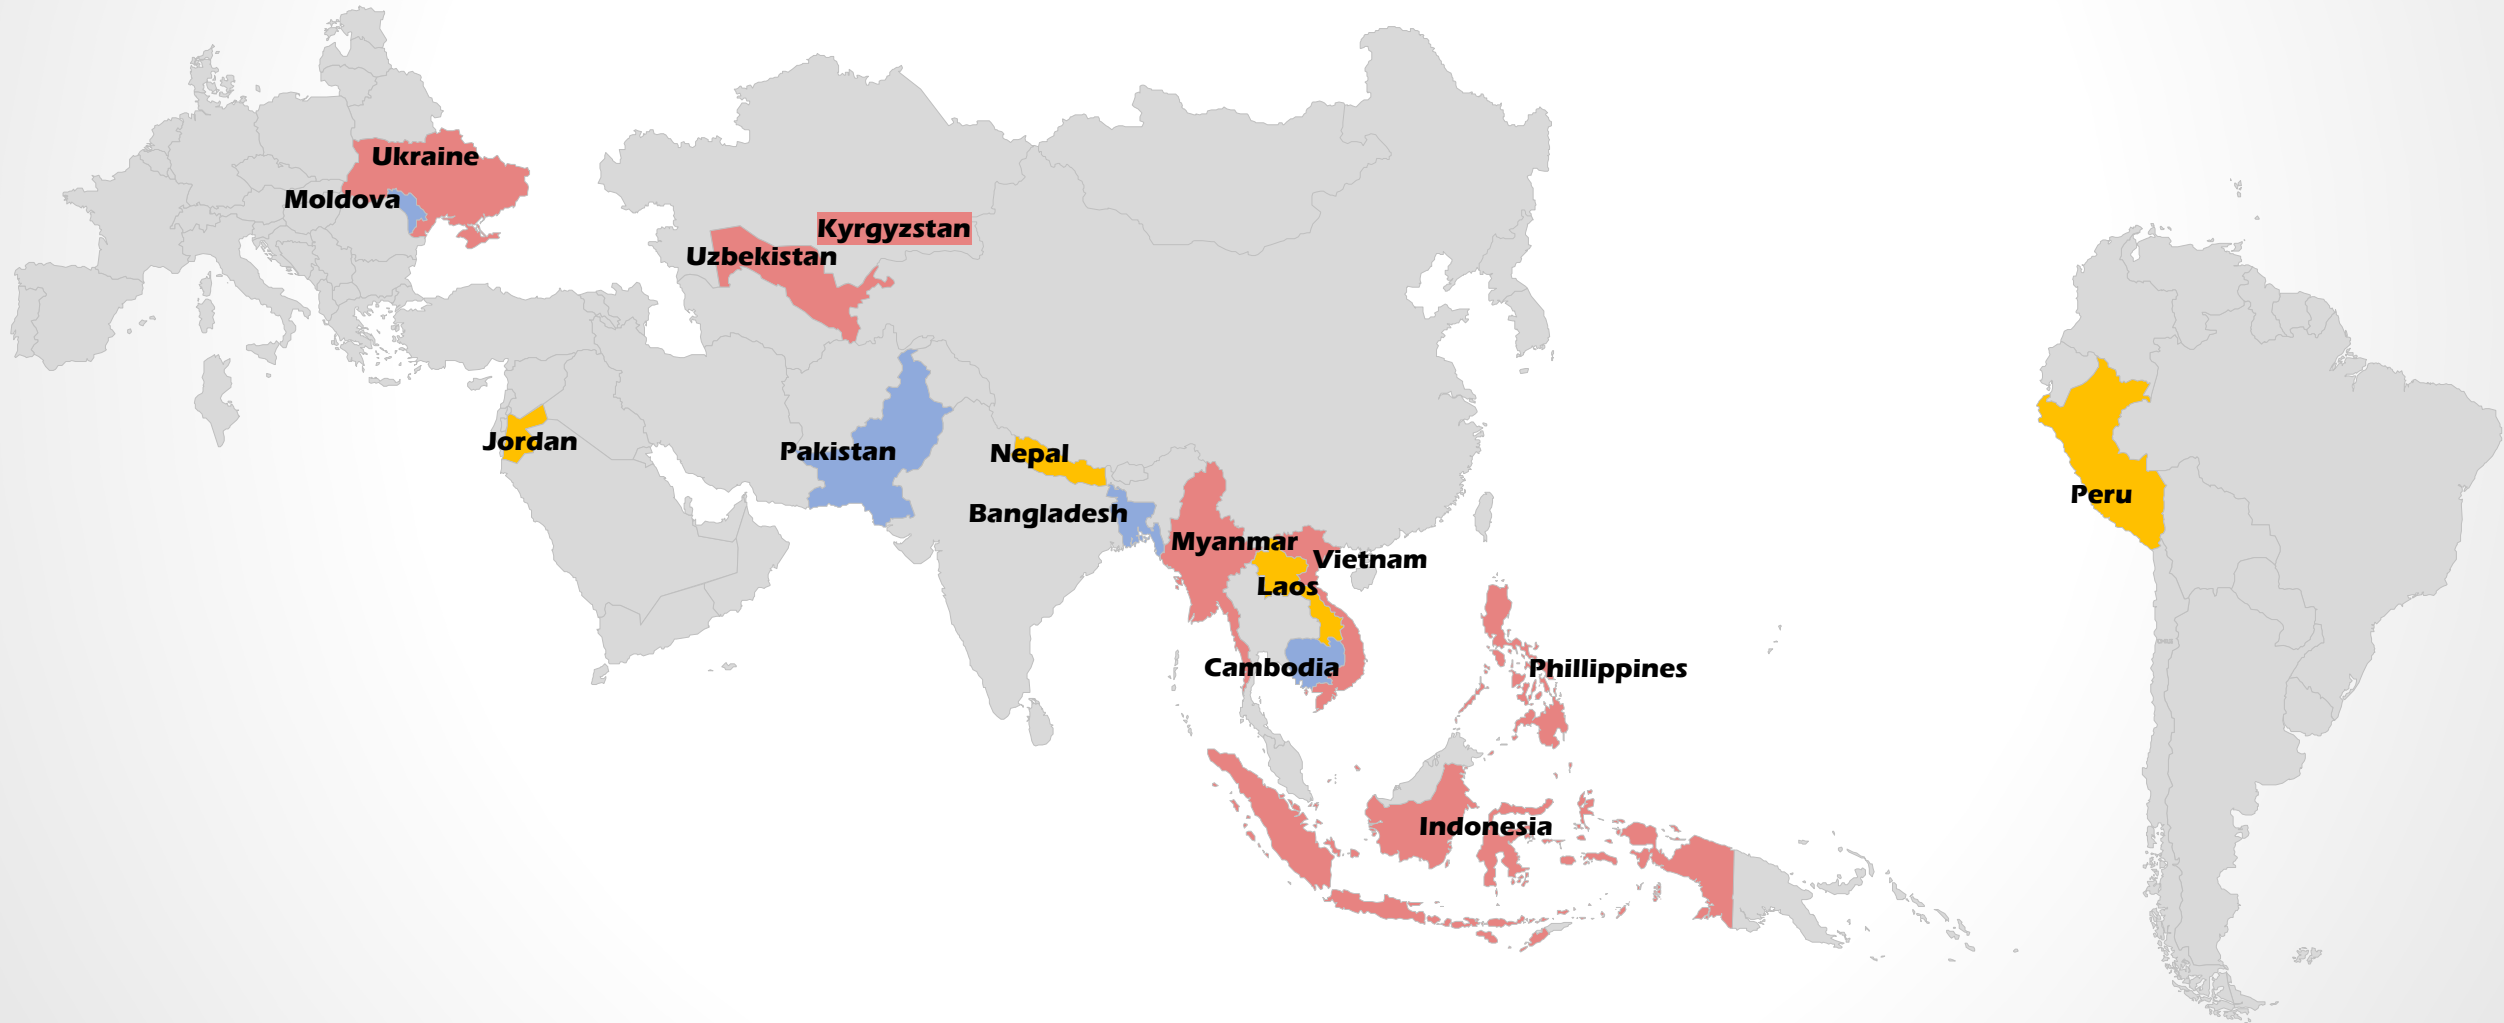

Global Programme

Through Global Health Institutes and Health Initiatives, GDEF supports R&D for Vaccines, ATM, and Stabilization of Medicines supplies

2-2. “GDEF” Where we are

2-2. “GDEF” Where we are

04 LIFT-TB

Partners

1) TB Alliance, ITRC

Global Disease Eradication Fund

IMI 모잠비크 협력사업 (2017~2019)

LIFT-TB Partners

The Global Alliance for TB Drug Development Inc. (TB Alliance)

- ☞ GDEF has searched for new model of cooperation for 2020 project, especially with Product Development Partnership(PDP)
- ☞ As the first case for cooperation with PDP, GDEF decided to work with TB Alliance in the field of MDR/XDR-TB

International Tuberculosis Research Center (ITRC)

Experience of collaboration with KOICA

- ☞ ITRC has participated in diverse KOICA projects
 - The Development of the Lung Center of the Philippines as the National Referral Center on MDRTB(2008- 2010)
 - Capacity Building for Laboratory Diagnosis and Control Programs of Tuberculosis at the National Lung Center of the Philippines(2012- 2014)
 - Establishment of Laboratory for Research on Communicable Disease(2011'2014), etc.
- ☞ In LIFT- TB, Lung Center of the Philippines(LCP), Myanmar Advanced Molecular Research Center (AMRC) would participate in the project
